ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS TO ANY PERSON TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

In June 1949, the Soviets completed construction of the largest radar installation in the East. It is located approximately twelve kilometers south-southwest of Lepaya, the Latvian port on the Baltic Sea. This installation will be the main center of control for Baltic waterways and airways as far north as Finland. German scientists are alleged to have worked on this project.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
